

# MAHESH R. PATEL

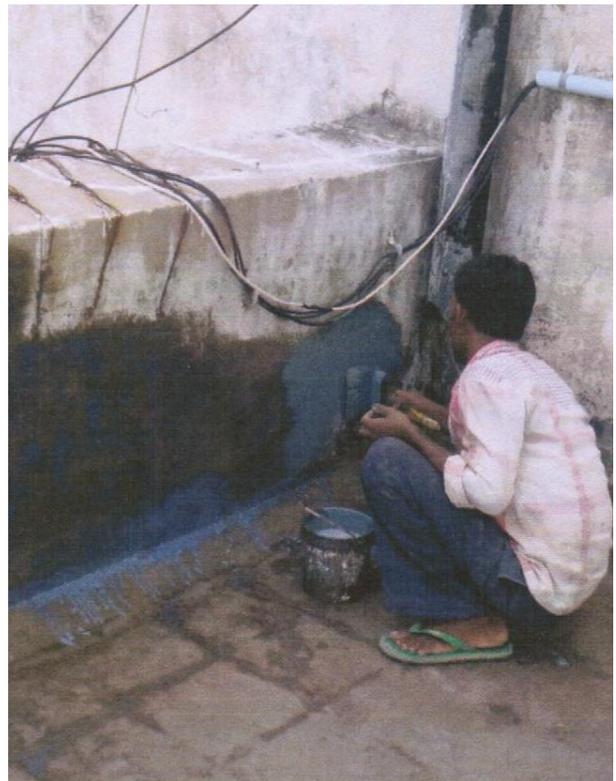

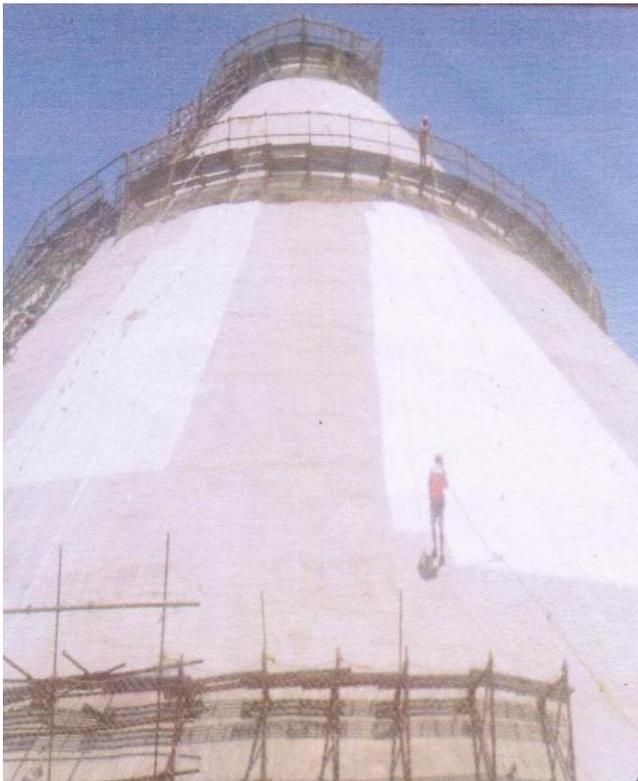

## ALL TYPES OF WATER PROOFING WORK

Engineering grouting work, Surface treatment work, PU Coating, Re-plastering work, Salt & damp problem, APP modified bitumen membrane work, Elastomeric membrane work and All type of Epoxy work

We undertake contracts to solve of all kinds of problems related to damping, salt, terrace sipping, sunken slab, epoxy coating, exterior and interior wall plastering and painting.

We specialize in:

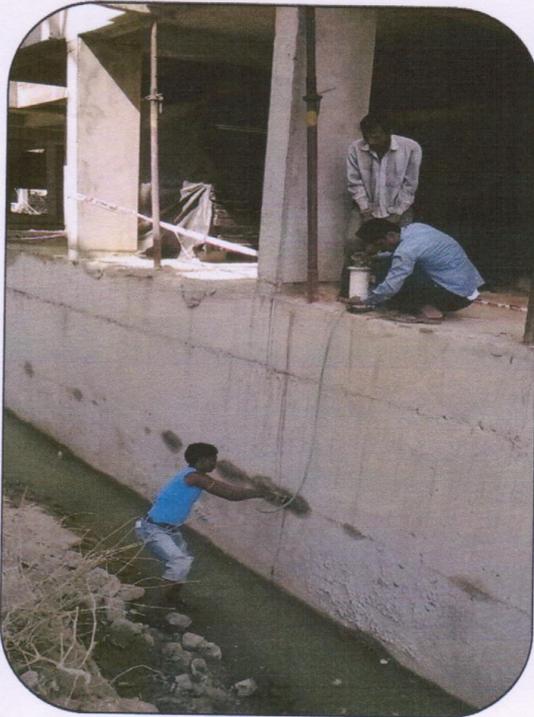

1. Marble plaster
2. Water proofing elastomeric membrane
3. Water based epoxy
4. Solvent based epoxy
5. NCL All Tak (Sweden Collaboration material)
6. WOL, BL, JL re-plastering work
7. Solvent based PU coating (High Gloss heat insulation)
8. APP modified bitumen membrane work
9. All types of grouting work (Heavy foundation)
